

JOCKEY7 WAGER

Make Your Wager Prior To The 4th Race

Kentucky Downs

Thursday, September 13, 2018

The Jockey7 wager allows the horseplayer to make win, place, show, exacta and trifecta bets on jockeys and their mounts over the last seven races at Kentucky Downs. Every horse that finishes in the top four receives points (25 - 12 - 9 - 5), and the jockey and their mounts that have the most points will produce the winner. Here is how the Jockey7 wager works:

- ASK FOR THE JOCKEY7 EVENT then give the amount and the wager such as "In the Jockey7 Event give me \$2 to Win on Number 3".
- Minutes after the 10th race is declared official, the official order of finish and payoffs for the Jockey7 wager will be displayed on the track video system and simulcast feed.

Post Time: 2:55pm (subject to change)
